MADE IN FRANCE FOR 50 YEARS

NEW PANNING MACHINES

THT 30

Compact horizontal belt panning machine

The performance of belt panning, in an all-in-one format.

THT 30 panning machine

THE ADVANTAGES OF THE THT

- **Quiet**
- **Even coating**
- **Clear view of the products**
- **Gentle movements**
- **Ideal for small production runs**

PRODUCTION

8 to 10 kg per batch

Smooth belt, very easy to clean

MADE IN FRANCE FOR 50 YEARS

THT 30 PANNING MACHINES

HOW IT WORKS

The THT 30 horizontal panning machine is designed to produce items coated with chocolate couverture. For the finish, products can be either polished or, more traditionally, dusted with cocoa powder.
The sliding movement created by the belt gives a clean, even coating.

EQUIPMENT

- Fully stainless steel structure.
- Belt panning system.
- Useful width: 300 mm.
- Compact format that sits directly on a worktop.
- Refrigeration unit built into the top of the machine: no support cabinet or external cooling unit needed.
- Transparent front door to monitor production.
- Lower drawer to collect debris.

With collection drawer

TECHNICAL INFORMATION

Model	**THT 30**
Capacity	**8 to 10 kg**
Production time	**1 h to 1 h 45 min**
Opening width	**300 mm**
Length	**600 mm**
Depth	**600 mm**
Height	**770 mm**
Power supply	**230 V 1-ph · 800 W**
Weight	**110 kg**

WHAT MAKES THE DIFFERENCE

Ultra-compact
A professional panning machine designed to make the most of laboratory space.

Built-in cooling unit
A cooling system built right into the machine, with no remote refrigeration equipment.

Easy installation
No dedicated cabinet needed: the machine sits directly on a suitable worktop.

Full process control
Adjustable rotation, ventilation and cooling to adapt to each stage of production, from coating to the final finish.

Constant visual check
Transparent door to follow how the products develop during panning.

Ideal for small production runs
Suited to artisan batches, recipe trials and product range diversification.
